

PEREGRINE SOLUTIONS GROUP

CMMC LEVEL 2 READINESS FOR SMALL DEFENSE CONTRACTORS — ENGINEER-LED · FIXED-PRICE · INDEPENDENT

CORE COMPETENCIES

- **CMMC Level 2 Readiness** — full-scope gap analysis across all 110 NIST SP 800-171 Rev 2 controls; System Security Plan (SSP); POA&M; preliminary SPRS score calculation and submission roadmap
- **Technical Control Design** — Azure/M365 GCC High configuration and compliance design; Microsoft Intune policy design; MFA architecture; the AC, AU, IA, SC, SI families — specified and documented for your IT team or MSP to execute
- **Compliance Engineering** — CUI boundary scoping; configuration management; incident response planning; risk assessment; media protection; supply-chain risk management
- **vCISO / Compliance-as-a-Service** — ongoing compliance leadership, POA&M closure tracking, SSP currency, pre-assessment preparation, C3PAO routing to open-capacity assessors

DIFFERENTIATORS

- **Speed through automation.** A purpose-built readiness engine generates the full SSP/Gap/POA&M/Roadmap package in days — clients see a sample on the first call.
- **Engineer-led, not paper-only.** The hard technical controls are designed and documented by a practicing senior cloud-security engineer and associate solutions architect.
- **Assessor-independent.** No C3PAO arm — no conflict of interest.
- **Fixed-price packages.** Scope defined upfront; no hourly surprises.
- **Local to the Carolinas.** Charlotte metro / Mooresville, NC — in-person for NC contractors; remote delivery nationally.
